

## Junior Role Practical Test

Thanks for taking part in the interview process. This practical test is just here so that we can get a better understanding of your knowledge.

### What to do:

- In this test, we would like you to re-create the screenshot of the crypto website (website.png) using the Vue and Laravel Framework. (required)
- Connect the contact form up so that it emails a test email. The email doesn't need to have any design in it. (required)
- Please don't use any CSS frameworks as we would like to see your skills.
- Make the website responsive. (optional)

Once you have finished the test, please email it back to [tom@tradeapps.co.uk](mailto:tom@tradeapps.co.uk). If you have any questions, please let us know at [tom@tradeapps.co.uk](mailto:tom@tradeapps.co.uk)
